**Re: PCB Self Implementation Plan (SIP) Project Status  
Mana Art Center, LLC  
Buildings 4 & 5  
50 Dey Street  
Jersey City, New Jersey 07310  
Langan Project No. 100412101**

Dear Mr. Haklar:

Langan Engineering & Environmental Services (Langan), on behalf of our client and project owner, Mr. Moishe Mana, Mana Art Center, LLC. (Mana), is providing this correspondence to inform you that Langan has been retained as the environmental consultant for the aforementioned project.

Please know that Langan was retained on September 3, 2013, and effectively is replacing the previous environmental consulting firm Keystone E-Sciences Group, Inc. (KES), for the interior PCB-related operations associated with Buildings 4 & 5 for the identified project.

Looking forward, please coordinate with our offices for operations and communications related to the identified project.

Should you have questions or need for additional information, please do not hesitate to contact our offices.

Thank you in advance for your attention.

Respectfully,  
**Langan Engineering and Environmental Services, Inc.**

Eric Meyer  
Senior Project Manager
